PROFESSIONAL PROFILE

I am Veterinarian of the National University of Colombia with experience in planning, monitoring and development of projects, and emphasis on the administration, evaluation and management of inter-institutional agreements, regarding to the international technical cooperation.

The integrality of the rural development is a huge interest for me as professional of the agricultural sector, and for that reason, I make the Master Program in International Agribusiness at the University of Talca (Chile) and the University of Goettingen (Germany); study that will be finished in March 2010.

So, the focus of my profession is the generation of an integral rural development policy towards the elimination of the poverty and hunger in Colombia, and the evaluation of those current policies.

I also have experience on Sanitary and Phytosanitary Measures in the frame of international negotiations as non-tariff trade barriers, and knowledge of the extra legal norms as requirements for the international trade.

I have been trained also in assurance quality processes into the agri-food chain.

Other abilities are an excellent interpersonal relationships and team work, skills on organization and monitoring of processes, capabilities to work under pressure, and to assume responsibilities.
