## ***I. Scope***

### **§ 1 Scope**

- (1) These regulations govern access and admission to the consecutive Master's degree programme in Management.
- (2) In accordance with the following provisions, the University shall carry out an internal procedure to determine the admission requirements for all places to be allocated on the consecutive Master's degree programme in Management.
- (3) <sup>1</sup>If more applicants fulfil the admission requirements than there are places available, the University will allocate the study places according to the results of an internal selection procedure. <sup>2</sup>If no more applicants fulfil the admission requirements than there are places available, a selection procedure will not take place.

## ***II Admission Authorisation***

### **§ 2 Admission Requirements**

- (1) <sup>1</sup>The prerequisite for admission to the Master's degree programme is that the applicant has the subject-specific aptitude. <sup>2</sup>The subject-related aptitude is possessed by anyone who has completed at least six semesters of relevant studies with a Bachelor's degree of at least 180 ECTS credits or with an equivalent degree in a degree programme at a German university or at a university belonging to one of the Bologna signatory states in accordance with section 3 in the degree programme Business Administration or in a closely related subject area. <sup>3</sup>Final examinations that have been passed in a country outside the Bologna signatory states require a determination of equivalence to the degrees in accordance with sentence 2, taking into account the proposals of the Central Office for Foreign Education (ZAB) at the Secretariat of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany (KMK) for the recognition and assessment of foreign educational qualifications, which are set out at the URL <http://anabin.kmk.org>. <sup>4</sup>The grades of the foreign educational certificates are to be converted into the German grading system.
- (2) <sup>1</sup>By way of derogation from section 1, anyone who has not yet completed a degree programme at the time of application but has acquired at least 150 credits in a relevant

Bachelor's degree programme in accordance with section 3 or an equivalent degree programme is provisionally entitled to admission. <sup>2</sup>The average grade determined from the previous examination results is also taken into account in the selection procedure instead of the Bachelor's grade or the grade of an equivalent educational certificate, irrespective of whether the result of the Bachelor's examination differs from this.

(3) <sup>1</sup>The selection committee shall decide whether a previous degree programme within the meaning of section 1 and 2 is relevant to the subject. <sup>2</sup>The prerequisite for the subject-related relevance of the previous degree programme is proof of at least the following achievements:

- a) Achievements in business administration totalling at least 66 credits, including at least 18 credits from modules with a medium or high academic level;
- b) Achievements in mathematics or statistics or econometrics totalling at least 15 credits;
- c) achievements in the fundamentals of economic theory totalling at least 12 credits.

<sup>3</sup>The relevance of the subject is determined on the basis of the documents to be submitted with the application and in this respect on the basis of suitable criteria, in particular on the basis of the module descriptions, from which the course and examination contents are derived, as well as on the basis of the literature used, the module requirements, the examination and study regulations and the study plans of the degree programme in which the work was completed.

<sup>4</sup>If fewer people apply who fulfil all the admission requirements in accordance with sentence 2 than there are places available, the selection committee may make the determination of subject-related relevance dependent on making up achievements in accordance with sentence 2, which have not yet been completed, within two semesters; in this case, the determination of subject-related relevance and admission are subject to a condition subsequent until proof of the missing achievements, which must be received by the University within two semesters of enrolment (cut-off period). <sup>5</sup>If the proof of the missing achievements is not submitted within the deadline, the determination of subject-related relevance and an admission decision based on it shall become invalid. <sup>6</sup>The determination of subject-related relevance is excluded if the scope of the achievements according to sentence 2 that have not yet been completed exceeds 15 credit points.

(4) <sup>1</sup>Applicants who have neither a German university entrance qualification nor a Bachelor's degree or equivalent qualification from a German university in a German-language degree programme must have sufficient knowledge of the German language. <sup>2</sup>Proof of this is provided in accordance with the examination regulations for the German Language Test for University Admission (DSH) by means of an examination with an overall result of DSH-2. <sup>3</sup>Applicants who are exempt from the German Language Test for University Admission (DSH) at the University

of Göttingen in accordance with the examination regulations for the German Language Test for University Admission (DSH) due to equivalent language skills are exempt from the obligation to take a test; This applies in particular to applicants who have demonstrated the required knowledge of German by successfully passing the "Test German as a foreign language" (TestDaF) at least four times at TestDaF level 4 (TDN 4) or by passing the "Prüfungsteil German" of the assessment test at preparatory colleges.

(5) <sup>1</sup>In all other respects, the general provisions of the enrolment regulations of the University of Göttingen remain unaffected. <sup>2</sup>The enrolment of applicants who are considered provisionally entitled to admission in accordance with section 2 is conditional until proof of successful completion of the Bachelor's degree programme or an equivalent degree programme is provided. <sup>3</sup>Proof must be provided by the end of 15.11. <sup>4</sup>If the Dean of Studies determines on the basis of the course of study to date, in particular the examination results to date, that the applicant will obtain the degree by the end of the first semester of the Master's degree programme at the latest, the deadline according to sentence 3 is extended until the end of 31.03.; the determination is only permissible if
